

Rameez Karamat

SENIOR FULL-STACK DEVELOPER

Senior full-stack developer with 10+ years of experience building and improving production SaaS platforms, APIs, workflow automation, payments, reporting, and data-driven business systems. I work across Laravel and Node.js backends, React and Vue frontends, relational and document databases, and Python automation, with a focus on clean systems and useful products.

PROJECTS

ECU Tech

PRODUCTION SAAS | 2022 - PRESENT | 15,000+ BUSINESSES

A global automotive SaaS platform. I build workflow automation, payments, APIs, reporting, monitoring, and Python-powered processing systems.

Laravel | Python | Stripe | REST APIs | Automation

DaVinci Automation

DESKTOP AUTOMATION | CLOUD INTEGRATION

A resilient bridge between Laravel cloud workflows and specialist desktop ECU software, with task orchestration, recovery, failure handling, and result synchronization.

Python | Laravel | Desktop Automation | Cloud Sync
